

EVERY DENNISON TRAFFIC SIGN SOLUTIONS

New Digital Sign Printing System.

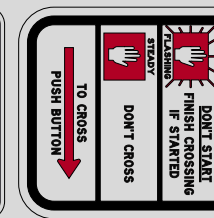

Avery Dennison and Matan have integrated the high performance of Avery Dennison reflective sheeting with Matan's thermal transfer ink sign system. The result is a low cost digital solution to sign making that is easy to use.

Since Avery Dennison reflective material has no orientation requirements, sign making is further simplified by allowing sign nesting which maximizes the use of materials.

Avery Dennison and Matan are introducing 2 new thermal transfer digital printers, the DTS-12" and the DTS-36". Both are environmentally friendly and optimized for Avery Dennison media.
