

Product data sheet—

Ray-O-Lite 2002

Description

The Ray-O-Lite 2002 is a plastic hybrid, low profile surface mounted road stud for general purpose road use, the Ray-O-Lite 2002 Permanent road stud offers outstanding safety advantages with excellent value for money.

Declaration of conformity to EN 1463 – 1 & 2 Performance Rating S1 & R2

Applications

- All specified EN1463 S1 & R2 rated work
- Particularly effective on edge lines

Advantages

- Typical reflectivity values 3 x greater than EN1463 requirements and higher than similar approved products
- Unique resilient polymeric construction reduces impact damaged
- Low profile—14mm nominal
- Roughed base ensuring excellent grip to all types of adhesives
- Tried and tested performance for over a decade

Product range

- Ray-O-Lite colours—White, yellow, green, red & blue. 1 & 2 way available.
- Packed in boxes of 100
- Suitable for use with our Lakeside Hot melt adhesive

Patented features:

- Protective reflector brow for reduction in reflector damage
- Abrasion resistant polymeric coating covering the reflector face— ensuring retained reflectivity.
- Unique internal construction of ribs and hooks efficiently interlocking the outer shell to the inert resilient filler.
